

Quarterly Operations Report

Prepared by the Planning Office · March 14, 2026 · Ref. QX-2291/B

The distribution network processed 48,317 orders during the quarter, an increase of 12.4% compared with the same period last year. Average delivery time fell from 3.8 days to 2.9 days.

Left column: warehouse capacity was expanded in Rotterdam and Lyon. Both sites now operate two shifts, and the new sorting line reduced manual handling by roughly one third.

Right column: customer satisfaction scores improved in every region. The largest gain was recorded in the northern territory, where response times halved after the new support desk opened.

Region	Orders	Growth	Rating
North	12,904	+18.2%	4.7
South	9,431	+7.5%	4.4
West	15,002	+11.9%	4.6

Invoice #A-10593 total: \$1,284.50 (due 2026-04-30)

Next steps include a review of supplier contracts, a pilot for weekend deliveries, and an audit of returns handling.

This document is intended for internal use only. Figures are preliminary and may be revised after the annual audit is completed.
